

TAAP FUNDRAISER KIOSK

Provide your supporters with an intuitive, media rich journey

TAAP F2F Kiosk can capture contactless one off and regular giving donations

Interactive kiosks can have huge benefits for charities. By simplifying the donation process and helping tell the story, they can increase the number of donations as well as the average donation amount.

The TAAP Fundraiser Kiosk solution enables charities to automatically sign donors up for regular donations in a secure and GDPR compliant way as well as taking contactless payments from the same device.

In addition to having access to real time donation data, all donor details are captured allowing for further marketing campaigns.

- Address look up validation
- Bank validation
- GDPR compliant opt-in option
- Works cross-platform
- Ability to export data
- Age validation
- Workflow for compliance
- Signature capture
- Portal for set up and management
- Charity branding

With the TAAP Fundraiser solution you can eliminate paper, dramatically reduce data entry errors through bank validation and postcode lookup, improve compliance and data integrity through digital workflow and dramatically reduce the acquisition cost of each supporter.

TAAP can supply everything you need to get started with a fully featured kiosk solution.

Contactless Payments

Take card and digital wallet payments on the kiosk device.

Donor Database

View all your donor stats and generate campaigns for future donations.

Videos and Imaging

Present your story through videos and images to help guide your supporters.

TAAP FUNDRAISER KIOSK

- Rapid deployment
- ICO DPA 2018 and GDPR compliant
- Highly scalable solution
- Intuitive, fast, easy to use and train
- Contactless Payment Hardware is supported
- HMRC compliant Gift Aid data
- Web based Portal to manage users, donors and reporting
- Ability to export data
- Range of Kiosk devices
- Hosting supported 24x7x365

TAAP F2F Regular Giving Portal

The TAAP Regular Giving Portal enables setup of locations, teams, fundraisers, donation amounts, branding and application wording to be used within the solution and provides visibility of the data captured.

In addition to the donation data, the solution also captures the donors contact details along with opt in preferences that can be used for SMS/Email marketing campaigns.

All data captured can be searched and cleaned to comply with GDPR legislation.

TAAP can provide full Business Analytics using real time donation data. By analysing the data in easy to interpret graphical dashboards, the Charity can make actionable business decisions immediately.

The data can be exported in HMRC compatible format so your charity can easily claim an extra 25% in donation revenue.

KIOSK

The Kiosk solution is standalone which enables donations to be made without the need for fundraisers to be present.

Pricing may vary depending on requirements.
